

EXADIGM

Mobile Mate

The ExaDigm Mobile Mate
is a rugged modular wireless
point of sale terminal

The ExaDigm Mobile Mate is the first truly modular POS terminal.

The modular approach allows a merchant to change services to best suit their environments. Four screws, and a CDPD wireless terminal becomes a CDMA wireless terminal. Take your business where you want to go. In many cases a wireless terminal can lower your monthly costs (vs. dedicated phone costs). Accept and authorize payments with freedom: at the poolside, in trade shows, while making a delivery, or in retail settings. Transactions can be sent through existing gateways - or directly cleared through processors. This can be done because the Mobile Mate has the highest Internet security available.

Closing a sale is easy. Receive payment wherever the customer is; process credit or debit cards in seconds through a choice of nationwide wireless networks, and print receipts.

- Nationwide wireless coverage
- Accept credit and debit cards, perform EBT and check conversion
- Authorize payments anywhere, anytime

Mobile Mate is the tool for boosting productivity, increasing revenue, and cutting costs. Boundless features in the palm of your hand:

- Improve sales and productivity, expand into new markets and accept cards on the spot
- Transaction times up to twice as fast as wired terminals
- Avoid costly telephone installation and rewiring bills

All of ExaDigm's designs are made with the user in mind: everything from paper roll loading to menu navigation. Built ruggedly to withstand everyday use.

► Technology

- Highest Internet security for transactions (128 bit TCP/IP / SSL).
- Out of the box wireless connectivity. No base stations, local area computer networks, or cables required.
- Transaction times up to twice as fast as standard wired terminals.
- Accept credit / debit cards, perform electronic benefits transfer and check conversion.
- A 32-bit ARM RISC CPU and generous amount of memory lets you add new capabilities as they become needed.
- Advanced Linux operating system for stable software.
- Easy to load, large capacity paper roll. Spend time closing sales, not inserting paper.
- Smart card capability with 4 SAMs. Load custom applications and loyalty programs with minimal legwork.
- Integrated, secure PINpad lets you tap into new markets and accept debit cards.
- User-friendly, menu driven interface.

“Freedom to accept payments anywhere, anytime. Boost sales, expand into new markets with Mobile Mate.”

► Technology One Step Ahead

CPU	32-bit ARM RISC processor 60 MHz processing speed
MEMORY	512 KB SRAM 4MB Flash ROM expandable to 8MB 8MB SDRAM expandable to 16MB
DISPLAY	132 x 64 pixel large graphical LCD with backlighting, time and date Indicator
CARD READER	Bi-directional magnetic strip reader High & low coercivity reader ISO tracks 1/2 or 2/3 Optional triple track reader
IC READER	Smart Card capability with 4 SAMs for custom applications EMV certified
PRINTER	Integrated graphic 12 line per sec thermal printer 58mm large capacity paper roll Multi-language font capability

Freedom to Expand Focus on Sales

► Built to Function in Any Environment

PINPAD	Integrated secure PINpad for debit transactions w/ support for Master Session, DUKPT, MACing, and triple DES encryption
RADIO MODEM	Available w/ Motient (Datatac), CDPD, Mobitex, GSM, GPRS, CDMA, 1XRTT radio modems Optional global fast connect modem
POWER	100V - 240V AC APM - Advanced Power Management
BATTERY	Battery pack with built-in charger 7.2V DC, 1800 mAH
DIMENSIONS	Height 10.38" (26.35 cm) Width 3.75" (9.53 cm) Thickness 3.75" (9.53 cm) Weight 25 oz (0.709 kg)
PORTS	2 RS-232 ports to communicate with external devices such as check readers, external PINpad and tethered RFID
KEYPAD	14 back-lit keys with 4 soft function keys
ENVIRONMENTAL	32° F to 104° F (0 C - 40 C) 90% maximum relative humidity
ACCESSORIES	Belt clip, carrying case, battery charger, vehicle adapter
